- Annual income
- Financial situation and needs (including funding)
- Financial experience
- Financial objectives
- Intended use of the annuity
- Financial time horizon
- Existing assets (including investment and life insurance holdings)
- Liquidity needs
- Liquid net worth
- Risk tolerance
- Tax status/Filing status

## COMMISSION

Please see your up line for your commission schedule and any details in reference to your commission payout. Below is some general information.

- Commission is based on the owner's age. If there are joint owners, it is based on the older of the two. In the case of a non-natural owner, commissions are based on the annuitant's age or oldest annuitant if there are joint annuitants.

- Commissions are paid based on the owner's age at issue and not the owner's age at the time the application is received.

For example, John Doe's birthday is April 15th. He signed an application on April 1st and is currently 80 years old. The Home Office received the application on April 3rd. There was a 1035 request to have funds transferred from an existing annuity. The funds were received at the Home Office on April 18th and the policy was issued the same day. The issue age would be 81 and the commissions in this case would be paid based on the issue age 81 and not 80.

- If a policy automatically rolls into a new guarantee period by not removing the funds within the 30 day window, then commissions are automatically paid at half the original commission without any additional paperwork from the agent.

- Commissions will be charged back if a policy is surrendered or partially surrendered within the first year.

- The charge back is pro-rated for any surrenders or partial surrenders that occur in the first year.

- If a death occurs in the first year, 50% will be charged back if the owner was older than age 80 at issue.

- There will be no commission chargeback at death if the owner was age 80 or under at issue; even if the optional Death Benefit Feature is not selected.

- We do not require delivery receipts prior to paying commissions unless:

- The amount owed to the writing agent on any one contract is \$15,000 or greater

- The upline agency requires signed delivery receipts in order to pay commissions
